

CODES, STANDARDS & REGULATIONS

WORK GROUP

2024 Co-Chairs:

Richard Roberts | Honeywell
Adam Sayler | City of Seward, Alaska

 Coalition.NCOAA.us

About Our Work

Codes, standards, and regulations have the power to affect systemic change by requiring cities, states, and industries to abide by certain rules. From a legislative perspective, cities and states may choose to adopt certain codes for carbon monoxide alarms in commercial and residential buildings, for instance.

While NCOAA and the Coalition will not actively be involved in lobbying, we will help shape the codes, standards, and regulations that may be adopted by legislative bodies.

Our goal for the first year will simply be to collect information about the various codes, standards, and regulations that are currently under consideration or will soon be coming up for review.

Our Initial Goals

①

Assess

Compile list of relevant codes and standards (existing and those in process)

②

Analyze

Gap analysis of current requirements in codes and standards and identify areas for improvement

③

Implement

Assess implementation and enforcement of various laws

MARK YOUR CALENDARS

**Third Tuesday Each Month
at 1 pm Eastern**

Work Group Meetings

**January 23, 2024
at 1 pm Eastern**

Coalition-Wide Semi-Annual
Meeting

July 29-31, 2024

CO Safety Summit
Kansas City
